

INTER SAFE 2

1st European Road Authorities Forum on Cooperative Intersection Safety

25th of March 2010, Amsterdam, RAI

The consortium of the INTERSAFE-2 project is pleased to invite you to the 1st European Road Authorities Forum on Cooperative Intersection Safety which will be held on 25th of March 2010 at the INTERTRAFFIC 2010 exhibition in Amsterdam.

This Road Authorities Forum will be **one of the first workshops in Europe** where experts from the ITS community shall come together with experts from different road authorities, cities or public bodies in order to discuss future possibilities for deployment and standardization of ITS and roadside infrastructure combinations in the field of **Cooperative Intersection Safety Systems**. This is a great opportunity for the participants to become a key player in these research activities.

The forum starts with some introductory presentations of the INTERSAFE-2 consortium in order to introduce the topic of Cooperative Intersection Safety. The second part of the forum is a moderated discussion together with all the experts in the audience.

The idea of the forum is to work out future strategies on the deployment of Cooperative Intersection Safety Systems. The different views of the experts from road authorities, cities and public bodies are of high interest and importance to the INTERSAFE-2 consortium as well as to the European Commission in order to gain future ideas on the introduction of such Intersection Safety Systems into the market.

Participation to this event is **free of charge**.

For registration please visit:

<http://www.intersafe-2.eu/public/ra-forum>

Please register also to the INTERTRAFFIC exhibition on

<http://www.amsterdam.intertraffic.com> (free of charge)

in order to get access to the workshop area.

Remember to book the date (25th of March 2010) on your calendar!

1st European Road Authorities Forum on Cooperative Intersection Safety

Agenda

Thursday, 25th of March 2010, Room G105 (RAI, Europe Complex)

8:30	Welcome
INTERSAFE-2 presentations	
9:00	INTERSAFE-2 project overview <i>Speaker:</i> Bernd Roessler, Coordinator of the INTERSAFE-2 project, SICK AG
9:20	V2X communication technologies in INTERSAFE-2 <i>Speaker:</i> Dr. Long Le, NEC Europe Ltd.
9:40	Driver assistance functions in INTERSAFE-2 <i>Speaker:</i> Dr. Marian-Andrzej Obojski, Project Manager, Volkswagen AG
10:00	Cooperative infrastructure for Intersection Safety Systems <i>Speaker:</i> Prof. Risto Kulmala, Research Professor - Transport Telematics, VTT
